"Now, by St Paul, the work goes bravely on." Lovejoy & Co. started work in their by draulic claims on Lynx creek, yesterday, and are now securing a rich crop of glittering gold. The company had about 300 inches of water to commence washing with.

Smith & Marcutt, just above them, have also commenced washing.

The Bashford mining company are preparing to work their gulch claims, higher up, on same creek, so that when all get fairly started. we may look for a gain in gold of about \$250 per day, over and above what some forty other miners above and below them on the creek, will take out.

We hear, also, that the company which owns the old Mexican gulch, in Big Bug dis-

triet, are sluicing away.

Let all who are idle and in need of cash, strike out for the placer diggings of Lynx, They commence sluicing next Big Bug, Hassayampa and other sections, and take advantage of the abundant supply of water to be had at these places and elsewhere in the county.

The petition for mail service was sent to U. S. Schater Sargeant, December 23d.

Col. H. A. Bigelow started for Lynx creek this morning, to inaugurate work in the min-ing claims of the Bashford company, of which he is one of the proprietors. The Colonel has, for some time past, kindly assisted us in writing up the Misen, thus giving us a chance to assist in the composing room, where work has been pressing; but, as mining is more profitable, he will, in all probabil-ity, stick to it as long as water lasts, and so, we will have to work the harder in order to dispense with his able pen, to which we are indebted for what little recreation we have had in several years past.
